by Softpro India Computer Technologies (P) Ltd. Lucknow(UP)

PROJECTS

1.Human Resource Management System (HRMS)

- This project is made to implement 'PAPERLESS OFFICE' in field of Human Resource Management.

- The purpose of the project in organizational perspective is to generate a fully computerized human resource system. All Data of the related share is needed to be present on the system so that whenever there is a need to view process or extract any information it can be done. It saves time and avoids losses.

2.Full Stack Complete CRUD Operations

- Complete CRUD operations using React, Nodejs, Express and mySQL

ACHIEVEMENTS

Accomplishment with 88.33%in TCQ NQT-Psychometric test 2023

3 star-in Java language on "Hacker Rank"
